

NOTIFICATION.

No. 9384—*Mis. F. 21-96, dated 10th February 1898.*

REGULATIONS UNDER THE EPIDEMIC DISEASES REGULATION, 1897, FOR THE
CITIES OF BANGALORE AND MYSORE.

Whereas certain parts of India are visited by, and the territories of Mysore are threatened with, an outbreak of a dangerous epidemic disease known as bubonic plague, and whereas the ordinary provisions of the law in force in the said territories are insufficient for the purpose of preventing the outbreak or spread of the disease, the Government of Mysore, in exercise of the powers vested in them under Section 2 of the Epidemic Diseases Regulation, 1897, are pleased to prescribe, under the said Epidemic Diseases Regulation, the following revised temporary regulations to be observed in the Cities of Bangalore and Mysore, in supersession of those issued with Notification No. 341, dated 9th March 1897 :—

1. Every house-holder who becomes cognizant of any case of the bubonic plague or of fever with glandular swellings in his house or in any other private dwelling within the municipal limits of the cities of Bangalore and Mysore, or of the arrival thereof of any person from any area which has been notified by the Government of Mysore or the President of the Municipal Commission to be infected, shall be bound forthwith to give information of the same to the Health Officer or a Sanitary Inspector of the Municipality. Every house-holder and every keeper or person in charge of an hotel, chattram or other place of public resort shall also in the same manner forthwith report the arrival at the house, hotel, chattram or other place, of any person from any area which has been notified by the Government of Mysore or the Deputy Commissioner to be infected.

2. The President of the Municipal Commission or any officer generally or specially authorized by him in writing in this behalf may, when he considers necessary, enter upon any premises at any time during daylight and summarily execute any work required under, or summarily abate any of the nuisances described or indicated in, Sections 104, 108, 133, 134 and 169 of the Municipal Regulations for the cities of Bangalore and Mysore.

3. When in the opinion of the Health Officer of the Municipality and of a medical officer deputed by the Senior Surgeon or, in the absence of any such officer, of the Surgeon of the district, any building or place is so overcrowded as to make the inmates or occupants thereof specially liable to an attack of the bubonic plague, the President or any officer generally or specially authorized by him in writing in this behalf may, by notice posted on some conspicuous part of the building or place, require the owner or occupier, if actually residing in the building or place, or the tenants or the actual inmates thereof, to abate as prescribed in the notice the overcrowding within twenty-four hours by reducing the number of lodgers, tenants or inmates of the said building or place; and in default of compliance with the requisition in the said notice may summarily eject all the inmates or occupants, or reduce the number of inmates or occupants in such manner and to such extent as may appear necessary; and the owner or the tenants or the inmates of such building or place shall not be entitled to claim any compensation on account of such ejection.

4. When any building or place has, in the opinion of the Health Officer of the Municipality, been so infected with the plague as to render its further occupation a source of danger to the inmates, tenants or occupants thereof, the President or any officer generally or specially authorized by him in writing in this behalf may summarily cause such building or place to be vacated and thoroughly cleansed and disinfected, and the said officer may cause the inmates of such building or place to be detained and segregated in such place as he may appoint for a period not exceeding ten days from the date of the occurrence of the last case of plague among such persons; and the building or place shall not be re-occupied until, in the opinion of the Health Officer, it is safe to be re-occupied; and the owner or occupier or the tenants or the inmates thereof shall not be entitled to claim any compensation on account of anything done under this regulation.

In like manner if it appears to the said officer that, in view of the prevalence of the plague within his jurisdiction, any building within such jurisdiction, intended or

used as a dwelling, is in so insanitary a condition as to be unfit for human habitation, he may summarily cause the same to be vacated and prohibit by a written order the further use of such building as a dwelling. After such prohibition no owner or occupier of such building shall use or suffer the same to be used for human habitation until the said officer gives written permission in this behalf.

5. No person shall let, or show for the purpose of letting, a building or part of a building in which he knows, or has reason to know, that a person has been suffering from the plague, without having such building or part thereof, and every article therein likely to retain infection, disinfected to the satisfaction of the medical officer appointed by the President in this behalf.

6. If, in the opinion of the Health Officer and of a medical officer deputed by the Senior Surgeon or, in the absence of any such officer, of the Surgeon of the district, the destruction of any hut or shed is necessary to prevent the spread of the plague, the President or any officer generally or specially authorized by him in writing in this behalf may summarily take measures for the destruction of such hut or shed and of the materials of which it is constructed; and the President may, in his discretion, give compensation, but no person shall be entitled to claim it of right, at the expense of the Municipal Funds for any loss or damage caused by reason of such destruction.

7. The President may, in his discretion, disinfect or destroy any collection of rags in rag-pickers' houses and rag stores, or of second-hand gunny bags imported from any part of India infected by the plague; and no person shall be entitled to claim compensation for any loss or damage sustained by him by reason of the disinfection or destruction of any such articles under the powers conferred by this regulation.

7-A. The President of the Municipal Commission or any officer appointed by him either generally or specially in this behalf, or the medical officer in charge of the Mysore City railway inspection station may take any measures that he may deem necessary for the disinfection of the clothing of any person found within the limits of his jurisdiction, who, in the opinion of the said officer, is likely to have been infected, or of any articles likely in the opinion of the said officer to carry infection, which are in the possession of such person; and such person shall be bound to submit to such measures and he may, if necessary, be detained until such measures are taken.

8. The Municipal Commissioners shall provide and maintain in such localities, whether within or without the municipal limits, as in the opinion of the Health Officer of the Municipality may be proper for the purpose, suitable and sufficient accommodation as approved by the Health Officer and by a medical officer deputed by the Senior Surgeon or, in the absence of any such officer, by the Surgeon of the district, for the isolation and treatment of persons suffering from or suspected to be suffering from the plague, or to have so lately suffered from the plague as to be in an infectious state, or likely from recent contact with plague cases to have been infected or to be in an infectious state, and for their detention until they shall be certified to be free from infection. In the places so provided the Municipal Commissioners shall furnish such hospital establishments, equipment and supplies as the Health Officer may require, and shall also make arrangements for feeding persons detained under any of the regulations now prescribed, on payment by them of the cost; but in the case of indigent persons the Commissioners shall supply them with food free of charge: provided that any person so detained may cater for himself subject to such rules and conditions as the Health Officer may prescribe. The Municipal Commissioners shall also in like manner and subject to like approval provide accommodation for persons who may be required to vacate any building or ground under the preceding regulations Nos. 3 and 4, and who may be unable to procure necessary accommodation for themselves.

Explanation.—Any certificate given under this regulation should contain an accurate description of the person named in it to prevent so far as possible its being used by another person.

9. Any building or place, whether within or without municipal limits, which is in the opinion of the Health Officer and of a medical officer deputed by the Senior Surgeon or, in the absence of any such officer, of the Surgeon of the district, suitable and required for the purpose of the accommodation to be provided under

regulation 8, may be entered upon and occupied by the Municipal Commissioners (if untenanted without any notice whatsoever and if tenanted after twenty-four hours' notice in writing conspicuously posted on such building or place) and used for the purposes of the accommodation under regulation 8 as aforesaid; and the owner or the lessee of such building or place shall not be entitled to claim from the Municipal Commissioners anything beyond a reasonable rent for the period during which the building or place may remain in their occupation: provided always the Municipal Commissioners shall be bound at their own cost to cleanse and disinfect the said building or place and, if a building, to whitewash it both internally and externally before vacating it.

10. The Municipal Commissioners shall provide suitable conveyances for the free carriage of persons suffering or suspected to be suffering from or infected by the plague, and for the transport of any clothing, bedding or other articles which may have been exposed to infection.

11. When in any building or place there is a person suffering or suspected to be suffering from the bubonic plague, or to have so lately suffered from the plague as to be in an infectious state, or likely from recent contact with plague cases to have been infected or to be in an infectious state, or believed to have recently arrived from an infected area the President or any officer generally or specially authorized by him in writing in this behalf may enter and inspect such person or building or place, and either.—

- (a) remove such person to one of the places of accommodation provided under regulation 8 and in such place or in some other place so provided to which, at the discretion of the Health Officer, he may from time to time be removed, detain and treat him until he shall be certified by the medical officer in charge of the place to be free from infection, or
- (b) take measures for segregating and detaining such person in his own house or in some other suitable place, if, in the opinion of the Health Officer, the said person can be there treated with no greater risk of spreading the infection than would arise if he were removed to a place provided under regulation 8.

Provided that no person segregated or detained under this regulation shall leave the place of segregation or detention except with the written permission of the officer in charge, who may take such steps as may be necessary to enforce this prohibition.

12. At or near the railway station of the Mysore City, upon its being duly notified in the *Mysore Gazette* as an inspection station, any medical officer appointed either generally or specially by the Government in this behalf may detain any train and may require any person travelling therein to alight and submit himself to medical examination as the medical officer may direct, and may for this purpose, with the assistance if necessary of the police, using such reasonable force as may be required, detain such passenger either on the railway premises or in some other suitable place which the President shall, if necessary, provide at the expense of the Municipal Fund; and if the said person is found to be suffering from or is suspected to be suffering from the bubonic plague, or to have so lately suffered from the plague as to be in an infectious state, or likely from recent contact with plague cases to have been infected or to be in an infectious state, the medical officer may deal with him under regulation 11.

Any such medical officer or other officer generally or specially appointed by the President in this behalf may also demand of any person so travelling his name, his usual abode and particulars of the places in which he has resided or which he has visited during the preceding fifteen days, and also the address to which he is about to proceed and any other particulars which the medical or other officer may think fit in view of satisfying himself as to the likelihood of the said person's spreading the infection of the plague. A person so interrogated shall be bound to answer truly to the best of his knowledge and belief all such questions and inquiries.

If any such person is found to have within the preceding ten days been within a part of India believed by such medical or other officer to be infected by the plague, and is unable to satisfy such officer that he is proceeding to any fixed

place of residence, such officer may remove him or cause him to be removed to a place provided under regulation 8, and may there cause him to be detained for ten days when, if he is certified free from the infection of the plague, he shall be permitted to depart therefrom.

13. The President of the Municipal Commission is empowered to direct the evacuation of houses in the neighbourhood of an infected house or of a block of houses or a particular locality, and to prohibit re-occupation of such houses or locality without permission. The President shall give notice for such period as he may deem necessary, and shall provide temporary accommodation for those removed from the houses evacuated. The President may require the evicted persons to reside in any place which he may appoint under such restrictions as he may deem necessary for a period not exceeding ten days, after which, provided no further sickness has occurred, any one who wishes to depart may, after necessary precautions, be allowed to depart.

14. The President of the Municipal Commission or any officer specially authorized by him in this behalf is empowered to close places used for the supply, preparation or storage of articles of food and drink in infected localities or in the immediate neighbourhood of infected houses, and to direct the removal of all articles of food and drink found in such places.

15. (1) the President of the Municipal Commission, when and to the extent he may deem necessary, may make regulations—

(a) for prescribing the route which shall be taken by a funeral procession from the place of death to the grave-yard burning ground or other place for final disposal of the corpse, and the places, if any, at which such procession may halt on its way for funeral prayers, ceremonies or other purposes;

(b) for enforcing burial in certain places or at a certain depth and for requiring that quick-lime be placed with the corpse.

(2) He may also prohibit the burial or burning of corpses of persons reasonably supposed to have died of the plague in or upon ground other than ground specially assigned by him for such purpose.

(3) When a person dies of the plague elsewhere than within the limits of a hospital, no one shall touch the corpse except those who undertake the necessary duties of preparing it for the funeral. Such persons shall disinfect themselves according to the orders which may be issued by the President of the Municipal Commission in this behalf.

16. The President of the Municipal Commission may, in order to prevent the spread of the infection of the plague, prescribe that no dhobies shall wash clothes except at such places and at such times and under such conditions as may be prescribed.

17. No person employed to do duty in any capacity at a place set apart for the accommodation, examination, isolation, detention or treatment of persons suffering or suspected to be suffering from the plague or to be infectious, shall withdraw from the duties of his office without permission, or without having given one month's previous notice in writing to the officer under whom he is serving, or shall neglect or refuse to perform his duties or any of them.

18. When in the exercise of the powers conferred by or under these rules a pass or certificate is granted to any person or persons to enable him or them to go from one place to another or for any purpose, such pass or certificate shall not be used by any other person or persons or for any other purpose.

19. Any person disobeying or contravening or refusing to submit himself to any regulation made under the Epidemic Diseases Regulation, 1897, or obstructing any measure which has been taken by Government, or which any authority, or officer appointed under competent authority to carry out such regulation has been required or empowered to take under any such regulation shall be deemed to have committed an offence punishable under Section 188 of the Indian Penal Code and shall be liable on conviction to imprisonment of either description for a term which may extend to six months or fine which may extend to one thousand rupees or both.

‘By Order,’

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.
